- The need to avoid conflicts of interest should not prevent the EMCDDA from collaborating with and seeking input from high-level experts. As the persons concerned are generally experienced and may have interests arising out of their professional background and capacity, appearance of conflict of interest, cannot always be entirely avoided. The risks of actual or perceived conflicts of interest should be identified, evaluated and managed. This is particularly relevant in areas where available expertise is limited. A fair, proportionate and timely handling of each case should therefore be ensured pursuant to a policy on prevention and management of conflicts of interest which reflects the perceived exposure of the agency to the relevant risks, taking into account the tasks entrusted to it.
- A conflict of interest generally refers to a situation where it can be reasonably considered that the Impartiality and objectivity of an assessment, opinion, recommendation or decision of the agency is or might be perceived as being influenced, compromised or biased by a personal interest held or entrusted to a given individual. Relevant personal interest may be of financial or non-financial nature and it may concern a personal or family relationship or professional affiliations and other relevant outside activities.
- Not only actual independence but also perception of independence is important, since this issue can
 impact on the agency's reputation by raising doubts about the conclusions reached. The appearance
 of conflict of interest can constitute a reputational risk to the agency, even if it turns out to be
 unsubstantiated.
- This declaration of interest shall not imply by itself the existence of any conflict of interest. Declaring an interest shall not necessarily mean having an actual or potential conflict of interest, nor shall it automatically disqualify a person from participating in the activities of the EMCDDA.
